## OUR SERVICE FOR MAXIMUM SECURITY AND EFFICIENCY

Service comes first at Jansen. Our experts support you all the way, from initial advice to final implementation – always with bespoke solutions for your projects. With our Service 4.0, we integrate innovative technologies so that we can offer you efficient, networked services. A nationwide network of branches and certified technicians guarantees fast, reliable support on the spot. Whether with regular maintenance, statutory testing or speedy repairs, our comprehensive service ensures that your door systems work perfectly.

You can rely on Jansen for quality, expertise and personal service straight from the manufacturer.

### Jansen networked – Smart Service & Smart Control

---

We offer you comprehensive control and efficiency for your door systems. Our JUNO portal offers affordable IoT solutions with easy access without local connections, predictive maintenance and 3GP LTE technology for optimum protection. In addition, our IoT control systems – the JBS 601/701 for fire protection and the JTS Connect+ for industrial applications – offer maximum security and efficiency. Both systems can be retrofitted and integrate state-of-the-art technology to meet your requirements.

### ELJOT – The door configurator for partners

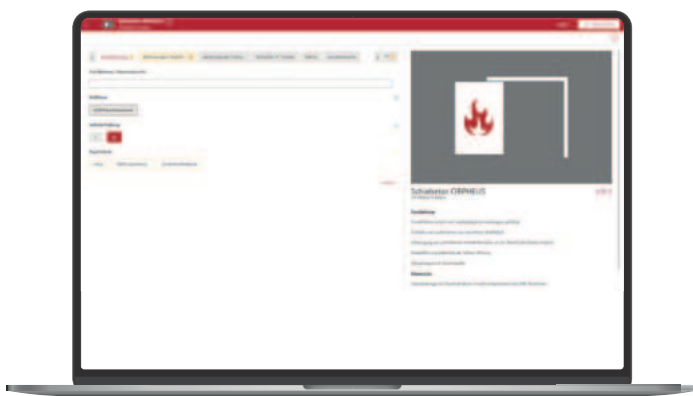

---

ELJOT enables you to design door solutions efficiently. The configurator makes it possible to prepare quotes quickly, customise door types, materials and colours, and integrate drives and security systems.

### BIM configurator – An individual 3D model for you at the press of a button!

---

Using our BIM configurator, you can create individual 3D models of our door systems in just a few steps. Tailor the models to your requirements and export them in all common formats – quickly, accurately and perfectly for your BIM projects!

## OUR SERVICES AT A GLANCE

### Precise planning

Make use of our technical advice and bespoke planning aids for efficient implementation of your project.

### Reliable maintenance

We take care of statutory testing and maintenance of your door systems so that expensive repairs can be avoided.

### Local support

With more than 100 service technicians throughout Germany, we offer rapid assistance on the spot.

### Repair and replacement service

We repair all makes of doors and offer a speedy replacement service if required. Our 24/7 emergency hotline guarantees rapid assistance.

### Fully equipped service vehicles

Our vehicles are fully equipped so that your door systems can be maintained or repaired quickly.

### Professional installation

Our qualified technicians ensure problem-free installation and acceptance of your door systems.

### Flexible service agreements

Choose between full service agreements or need-based repair maintenance.

### Service courses

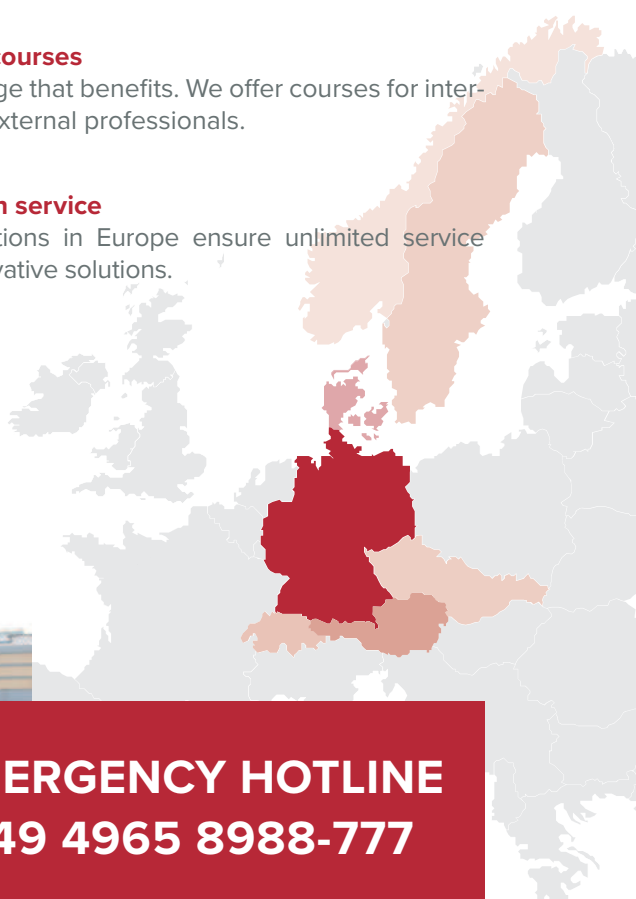

Knowledge that benefits. We offer courses for internal and external professionals.

### European service

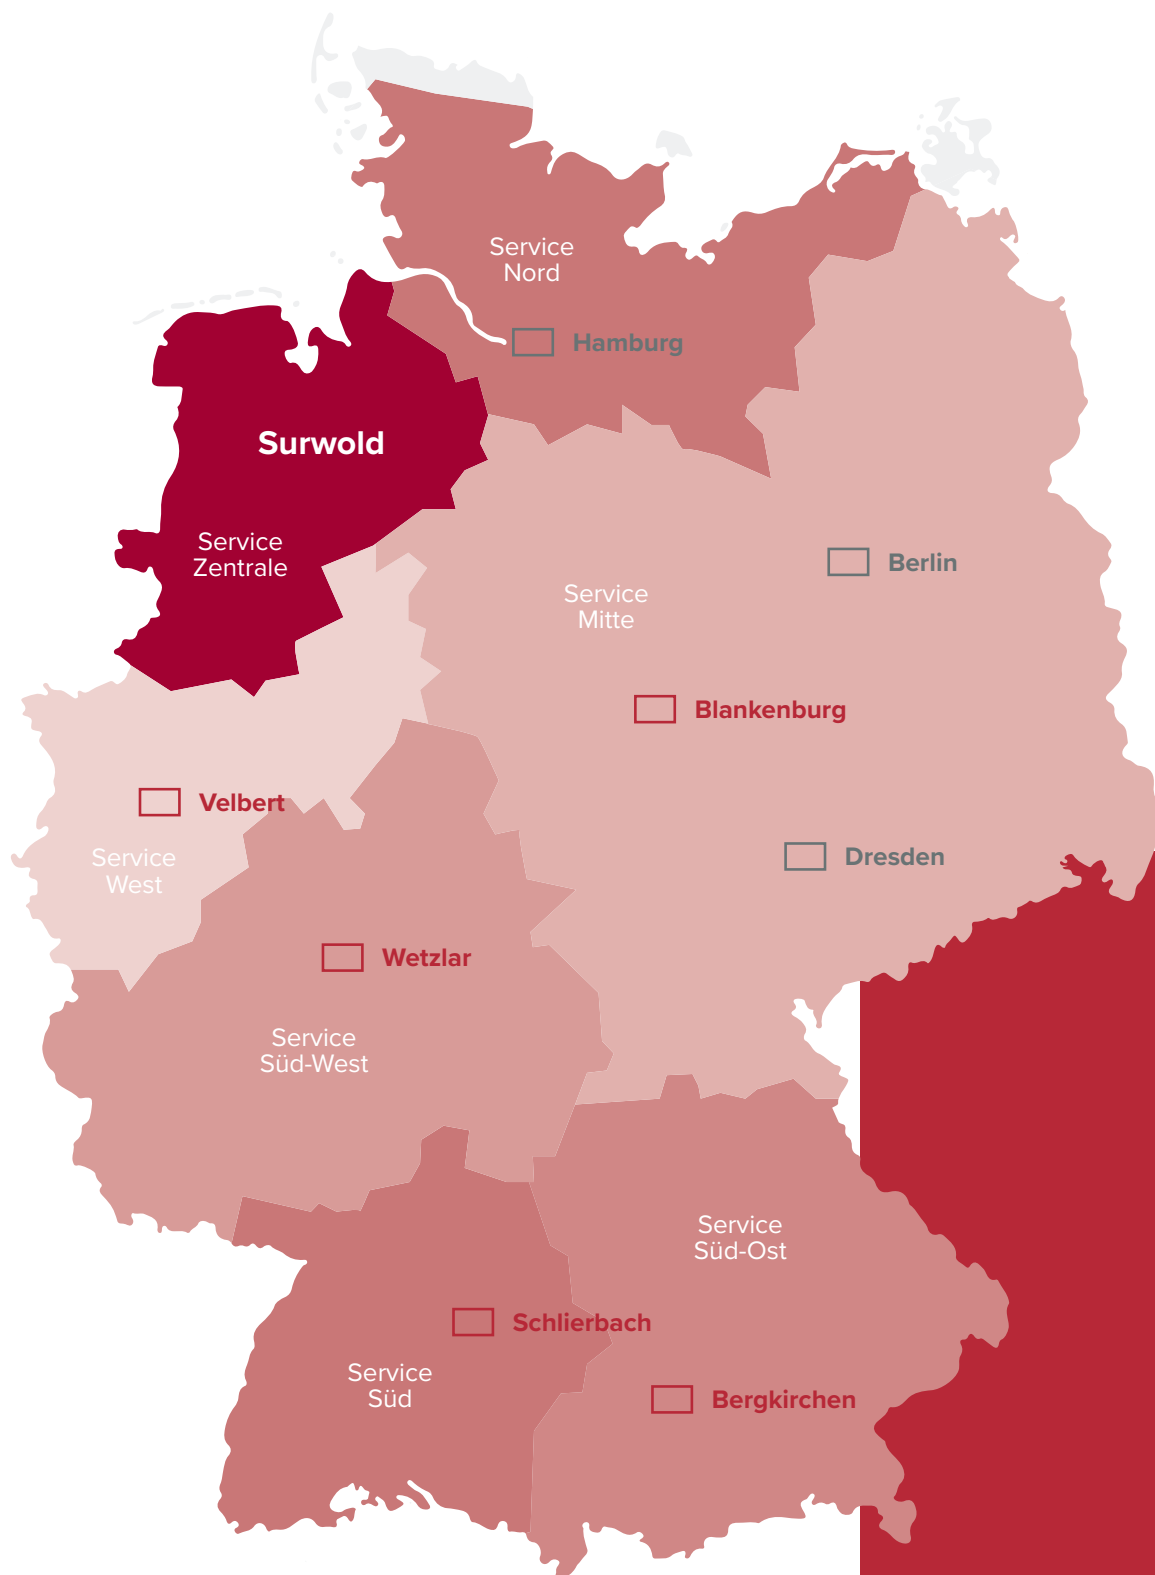

Our locations in Europe ensure unlimited service and innovative solutions.
